

# Connect and Play

For children aged 0 – 8 with complex needs.

We help children and their families communicate, interact and play through accessible sensory sessions.

We run free sessions during term time and in school holidays exploring themes and stories that all children can access.

Our sessions run across Birmingham including at Sense TouchBase Pears, within the wider community and through partnerships with schools and nurseries.

**For more information about the service or to see if it's suitable for your child, visit [sense.org.uk/free-play](https://sense.org.uk/free-play)**

“Every activity is accessible to my child, she can get stuck in without the worry of making adjustments due to her disability. We love how friendly, welcoming and engaging the staff are. The sessions are very fun, stimulating and educational at the same time.

The smiles, excitement and joy it has brought to my little ones face. She lets you know how much she loves coming despite her being non verbal.”

- Laura, parent
