

# Working Together with Children and Families

## Bournville Village Primary School

### What is this showcase about?

Taking part in the OAG Parent Carer Action Research Project, Bournville Village Primary School reviewed how they communicate with parents about SEND provision. The school focused on improving how information about support is shared so that parents understand what provision is in place and how it is helping their child.

### Expect to see...

- How the school identified communication with parents as a priority for improvement
- The actions taken to share clearer information about SEND support
- Reflections on how improved communication increased parent understanding and confidence
