

# SEND Occupational Therapy Newsletter

## Early Years & Primary

### Sensory Circuits

Sensory Circuits are a series of motor activities that aim to support with sensory regulation. Learn about how to structure a sensory circuit.

*Feedback: "Class teachers have noticed more engagement and reduced anxiety. They have seen the difference when children come back regulated"*

**23<sup>rd</sup> April at 09:00-12:00**

**Moseley School and Sixth Form College**

### Fun with Food

Online training and support with setting up a food play group in your setting for children that are not open to trying new foods.

*Feedback: "Before the intervention, Child A struggled to try new foods and became anxious during snack and lunchtime. After the intervention, Child A fully enjoyed the experience and became more confident engaging with different foods through play."*

**3<sup>rd</sup> June at 09:00- 11:00**

**Virtual (book via Eventbrite)**

### Ready, Steady Reception

Gain support and how to set up and run intervention groups in school including both Occupational Therapy and Speech and Language principles.

*Feedback: "I feel confident in delivering these interventions and adapting the strategies to meet the individual needs of the children I support."*

**Enquire via email**
