Sensory Circuits

Sensory Circuits are a series of motor activities that aim to support with sensory regulation which can promote engagement in learning. If you would like support to understand how to structure a sensory circuit, please contact us.

SEND OT can provide twilight sessions 15.30 – 16.30 and train multiple staff/ settings on inset days through online delivery.

OT Skill Builders

Gain support on how to set up targeted intervention groups and assess baselines based around life skills.

Groups include:

- Meal Preparation
- Independent Travel
- Media Leisure

If you are interested in this project, contact us via email.

Coffee Mornings

SEND OT can attend MDT coffee mornings to discuss what Occupational Therapy is, what support can be provided to families & schools and answer questions that parents/ careers have.
